4/232, Pandiyan Nagar, Near Toll Gate, Vijayamangalam, Erode, Tamil Nadu, India

Career Objective

Third-year B.Tech Computer Science and Engineering student specializing in AI & ML with experience in quantum computing, full-stack development, and AR/VR applications. Skilled in Python, AI/ML, and MERN stack web development. Seeking a summer internship to **leverage technical skills, contribute to innovative projects, adapt to new environments, and achieve professional growth.**

Education

CHRIST (Deemed to be University), Bangalore, India 2023–2027

B.Tech in Computer Science & Engineering, Specialization in AI/ML, Honours in Quantum Computing GPA: 9.57/10

Vijay Vikas International Senior Secondary School (CBSE), Erode 2022–2023

Higher Secondary Certificate (Class XII) 83%

Vijay Vikas International Senior Secondary School (CBSE), Erode 2020–2021

Secondary School Leaving Certificate (Class X) 74.4%

Technical Skills

Programming: Python, Java, C, MySQL

Web & App Development: HTML, CSS, JavaScript, jQuery, MERN (Node.js, Express, MongoDB, React), Android Studio

Operating Systems: Linux, Windows

Tools & Platforms: GitHub, HackerRank, GeeksForGeeks, Unity Hub, Vercel, Qiskit

Professional Experience

Full-Stack Web Development Intern — CrestaCore ARPA

- **Developed** a personal portfolio website and a functional travel booking & enquiry website using MERN stack
- **Implemented** backend API design and database management
- **Deployed** web applications using Vercel
- **Enhanced** web development skills in HTML, CSS, and JavaScript

Green Technology Intern — 1M1B (AICTE Internship)

- **Executed** sustainability and climate action projects using technology
- **Strengthened** leadership and collaboration through project presentations

Industrial Visit — Dell Technologies

- **Gained** practical experience in enterprise servers and cloud computing infrastructure
- **Participated** in collaborative tech activities and team debates

Industrial Visit — Infosys Mysore

- **Observed** large-scale IT operations and infrastructure
- **Acquired** insights into corporate IT ecosystem and career pathways

Research Visit — IISc Bangalore

- **Explored** quantum computing research including single-photon experiments
- **Interacted** with researchers to understand applications and methodologies

Projects

Quantum Fourier Transform for Audio Signal Processing

- **Simulated** QFT algorithm in Python and Qiskit for efficient audio analysis
- **Designed** a system to process WAV files, extract frequency components, and visualize outputs

Travel Booking & Enquiry Website — CrestaCore ARPA PVT LTD

- **Developed** a full-stack web application implementing backend APIs and database management

Quantum Error Correction – 3-Qubit Bit-Flip Code

- **Implemented** a quantum error correction algorithm using Python and Qiskit

AI Pneumonia Detection System — Under Development

- **Developing** a CNN model to classify chest X-rays for pneumonia detection
- **Building** a web interface for instant automated diagnostic predictions

Certifications

- Python, Data Structures & Algorithms (NPTEL)
- Python for Data Science (NPTEL)
- Python Programming – A Practical Approach (Udemy)
- AI Fundamentals (IBM SkillsBuild)
- Build Your Own Chatbot (IBM SkillsBuild)
- Cloud Foundations (AWS Academy Graduate)
- Networking Basics (Cisco)
- Introduction to Data Science (Cisco)
- Generative AI Essentials (Microsoft/LinkedIn)
- Cybersecurity Awareness and Foundations (LinkedIn)

Leadership & Volunteering

- Co-Head, Documentation Team, Physical Education Dept, CHRIST University – **Led** documentation and **served** as POC for sports events
- Vice-Captain, School Sports Club – **Led** teams, promoted teamwork, **organized** events
- Service Learning – **Collaborated** with orphanages/NGOs, **developed** attendance systems, **redesigned** web portals

Languages Known

Tamil (Native), Telugu (Native), Hindi (Working), English (Working), Malayalam (Manageable)

Workshops & Events

Participated in TechX Bangalore 2024 (IEEE); Attended “AI for Students: Build Your Own Generative AI Model” workshop

Hobbies & Interests

Watching movies, listening to music, exploring new places on bikes/cars, socializing and group discussions

Declaration

I hereby declare that the information provided above is true to the best of my knowledge.
